Preliminary and Advisory

LOCATION:

The incident occurred at the University of Michigan West Quad Dormitory, in room 4068 of Williams house.

REPORT RECEIVED:

While investigating a robbery that occurred at this room, a search warrant was executed and this substance was located.

INVESTIGATION:

While investigating the robbery at this address (related report 1790303767) Detective Tom Cargill was able to secure a search warrant for this Nick Remington's dorm room (4068 Williams), as well as the contents of his cellular phone. We then responded to the room and conducted a search warrant. Detective Cargill and Officer McLenaghan searched the room and I maintained a presence at the door and packaged the property recovered.

PROPERTY RECOVERED:

1 black in color Acer brand laptop computer with serial number NXMVRAA004533157557600 was turned over to me by Detective Cargill.

2 containers with liquid substances were located and turned over to me. They were secured in evidence locker #1. It is now believed that these liquid substances may be for a "vapor" type cigarette

1 pill shaped container with a glass pipe and grinder. The grinder had dust and the aroma of suspected marijuana. This was secured in evidence locker #1

Verizon Flip Type phone, silver in color was turned over to me by detective Cargill

1 Roll of clear Duct brand tape. This resembled the tape that the suspect entered West Quad with. It was secured in evidence locker #1

1 Clear baggie of what appeared to be powder. It was in a zip lock type of baggie. Officer Carriveau and I field tested this substance and it tested positive for MDMA. It was weighed (2.8 Grams) and placed in evidence locker #1.

The Cell Phone and Laptop were turned over to Detective Cargill for the forensic examination.

The property was all secured into evidence under the associated report number of 1790303767.

INCIDENT LOCATION:

541 Thompson St #4068 Williams House

Ann Arbor, MI 48109

REPORT RECEIVED:

On the December 5, 2017 Detective West and I, Detective Tom Cargill were called in for a Armed Robbery that occurred at the above listed address. We met with the victim of that crime, Nicholas Remington. During the investigation Remington became uncooperative and declined us access into his dorm room, or access to his cell phone. It was discovered through our investigation that Remington may be selling narcotics out of the dorm room and that there may be narcotics inside the room, along with evidence of the crime.

I prepared an search warrant for both the Remington's residence and the Remington's cell phone and had it reviewed by APA John Reiser. It was then reviewed by Magistrate Garwood and both search warrants were signed. The search of the residence was subsequently conducted.

Narrative:

SUMMARY:

This report is in reference to the incidents involving Nicholas Remington.

INFORMATION:

A search warrant was obtained to search the dorm room of Nicholas Remington, as well as his Iphone Cellular device which he had on his person when he was interviewed. In the search of his dormitory room, a bag of suspected drugs were located and were sent to the lab to test. A verizon brand "flip" phone and a Acer brand laptop were seized during the search of the room. A search warrant was obtained for the contents of these items as well.

Detective Lucas and Cargill extracted the information from these items and were able to transfer the information onto a hard drive for me to view. The files are too large to burn onto a thumb drive or compact disc.

Verizon "flip" STYLE PHONE:

This phone had items from 2015 and did not have anything of evidentiary value on it.

ACER LAPTOP:

This laptop was examined and nothing of evidentiary value was located on the computer.

IPHONE CELL PHONE:

This cell phone is the cell phone that Nicholas Remington currently uses. It was seized from him on the night of the robbery (17903003767) and had recently dated activity on it. I did not find anything of a criminal nature on the SMS (text messages) or MMS (text messaged with photographs), video's, photographs, Device locations, or email portions of the phone.

In looking at the "Chats" portion, it appears that this is the way the Nicholas Remington communicates in reference to his drugs and purchasing of drugs. The information was from his "Facebook Messenger" social media site. The correspondence with a subject named "ixiivii austin" documented a long conversation about the purchasing and selling of drugs. In the conversation, "ixiivii Austin" mentions his address of [REDACTED] and later [REDACTED] in talking with Nicholas. "Austin" also gives his phone number to Nicholas Remington as [REDACTED]. In researching this information on the law enforcement intelligence website "accurint.com" it shows that this information comes back to Austin Kittrell who resides at [REDACTED]. This phone number is also listed to Kittrell. It is thereby thought that "ixiivii Austin" is "Austin Kittrell".

These "chat" messages cover a long period of time and will be forwarded to the prosecutor on a Compact Disc, due to the length and number of messages between Kittrell and Remington. These messages document the purchasing of drugs from Kittrell, by Remington, who is thought to be selling them out of his room at the West Quad dormitory where the suspected bag of MDMA was located at.

Narrative:

SUMMARY:

This report is in reference to the incidents involving Nicholas Remington.

INFORMATION:

In reviewing UMPD report 1790303767 in reference to the robbery of Remington, Officer McLenaghan completed a supplemental report. In this report, McLenaghan documented a contact with Joshua Anapoell, who had talked to Remington immediately after the robbery. Anapoell had told McLenaghan that Remington had drugs on his person and offered him some after the incident. I made telephone contact with Josh Anapoell on 3/7/2018.

STATEMENT OF JOSHUA ANAPOELL:

Anapoell said that he had met Nicholas Remington on one of the first days of school, but they never hung out together. Anapoell said that Remington had offered him drugs on several occasions.

Anapoell said that on the night of the robbery, he saw Remington who he said was just robbed. He said Remington had told him that he was robbed of his cell phone and money, and that he had just got his cell phone back from the robbers. He also told Anapoell that they got his money, but did not get his drugs. Anapoell said that he then pulled a clear in color ziplock baggie from his pocket and showed him. Anapoell said that the baggie that Remington had was filled with pills. Anapoell said that Remington had told him that the robbers did Molly (MDMA) while they were in his room, so he assumed that it was Molly that he still had in the baggie.

Anapoell said that Remington had offered to sell him Acid, molly, weed, and cocaine in the past, but he never bought any from him. Anapoell said that Remington told him he had sold some girls some cocaine earlier in the day.
